NEW PRODUCT RELEASE
JULY – SEPTEMBER 2023

STAY CONNECTED

Not all products pictured are available in Australia/New Zealand.

Our commitment to tradespeople means designing products that make real improvements to how you work. Whether it's innovation in power tools or new additions to storage solutions, every Milwaukee® product is delivered with a purpose: to help you work more efficiently.

We have a game-changing answer to your old manual shears. The new M12™ Brushless Pruning Shears deliver fast, controlled cutting with a lightweight, inline design for accessing intricate pruning applications. These cordless shears are engineered to help with the repetitive cutting of small branches and aim to reduce muscle strain compared to manual solutions.

Maximise your workshop efficiency with our growing number of PACKOUT™ wall-mounted storage solutions. The new PACKOUT™ Bins, Racks, Hooks and Basket are the latest additions to PACKOUT™—a platform with over 65 modular storage solutions to help you stay organised on the job site, in transit and the workshop. Constructed with durable materials, PACKOUT™ is built to withstand harsh conditions and secure your belongings. Each product is designed to make it easy to find what you need when you need it.

You can also get excellent value from our Milwaukee Power Packs and new 238 Piece Automotive Starter Toolkits. These are great options if you need to upgrade your tools, get started with your first set of tools or are ready to make the switch to Milwaukee as your brand of choice on your job site.

FUTURE
FORWARD™

RECYCLE TODAY. POWER TOMORROW.

Your lithium-ion batteries have worked hard to power your projects. When they reach their end-of-life, let them continue to power your work in the future.

Milwaukee Tool New Zealand has partnered with E-Cycle, Phoenix Metal Recyclers and Envirostream to provide you with safe, sustainable lithium-ion battery recycling, that is collected across New Zealand and processed in Australia.

Recycled battery material can be salvaged and used for remanufacturing. Recycle your end-of-life lithium-ion batteries the right way and re-harness that power in the future while also ensuring a greener environment for the next generation.
