

REDBACK

AUSTRALIA'S MOST TRUSTED EXHAUST

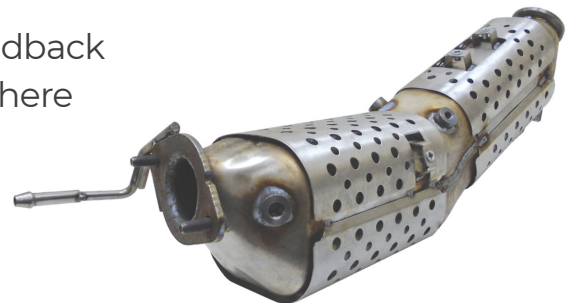

CATALYTIC CONVERTERS

The Redback emission range includes the largest range of direct bolt-on catalytic converters in the Australian market. Covering Euro specifications from Euro 1 to Euro 6. The Redback range also has an extensive range of universal (weld in) catalytic converters in both standard replacement and performance applications. The range includes 50CPSI performance cats up to 600 CPSI Euro 6 cats. Keep the "check engine light" off with Redback.

DIESEL PARTICULATE FILTERS (DPF)

Redback diesel particulate filters (DPF) are manufactured to European type approval. The Redback range of DPF's is the largest range in Australia. Where OEM require wash coating for efficient catalyst process the Redback range has you covered. All DPF's are sold with fitting kits and are boxed to ensure protection.

STANDARD REPLACEMENT EXHAUST SYSTEMS

Redbacks standard replacement exhaust range covers thousands of applications. Starting with the "old school" applications right through to current Euro vehicles.

Our products are manufactured in Australia, the UK, Italy, Korea, Malaysia and China. This helps us to service the Australian Car Parc with great quality parts at a fraction of the cost. Redback guarantees first time fit.

UNIVERSAL MUFFLERS

We have mufflers and resonators to suit your modified 4x4, race car, classic car or stock standard daily. Our mufflers come in a range of different materials including 304 stainless, 409 stainless and aluminised steel. Redback mufflers are manufactured with the following internals – triflow for reduced volume without loss of power, baffled to reduce maximum volume, megaflow for no restriction, and resonator for low profile tone control. Whether you want to make some noise, tow in peace or get the most power from your exhaust system we've got you covered.

PERFORMANCE EXHAUSTS

Redback offers a range of Australian made catback exhausts to suit popular passenger vehicles to enhance the sound and performance of each vehicle, including mufflers, resonators and deletes pipes.

FABRICATION PRODUCTS

Redback has a comprehensive range of fabrication products. It includes everything you need to fabricate stainless snorkels, extractors, turbo back exhaust systems, catback exhaust systems, turbo manifolds, muffler deletes, high flow cat pipes, quick release V banded exhaust systems, 4x4 exhaust systems and factory standard exhaust systems.

HEADERS & BOLT-ON UPGRADES

Redback manufactures a range of bolt-on upgrades to increase power and driveability. This range includes mandrel bent headers and high flow catalytic converters. These bolt-on upgrades bolt directly onto to Redback performance exhausts.
